

Blur The Lines Between Work and Play. Host an Improv Workshop or Show at your organisation or during an event and turn your workplace into a creative supporting and fun space. Improv Comedy Training will improve trust, teamwork, collaboration, creativity, innovation and most importantly connection and PLAY!

Main areas of business we can help with:

- **Creativity and Collaborative Brainstorming** – To help teams learn to build and understand the creative process in a safe environment.
- **Active Listening and Communication** – Enhance your communication skills in both group and interpersonal relationships.
- **Team Building** – Use improv games to help build trust and partnerships with co-workers. Acknowledge ideas and situations and develop solutions as a team.
- **Sales and Public Speaking** – Hone presentation skills, learn to “break the ice” and be persuasive and overcome objections immediately.
- **Culture Change** – A series of improv workshops at your business can help create an ongoing environment where your team learns to adapt to issues as they arise, find creative solutions to complex issues, and enjoy their work even more.

Great for conferences, group organisations or we can bring an improv class or show to your place of business. All workshops and shows are custom designed to suit your needs.

### Improv for Entertainment:

- **Hilarity Reigns** – Book us to entertain your conference delegates and let us ramp up the festive mood. Customised improv can be made interactive or simply fun to watch. Designed with your brand and mission in mind.

### Improv for Business:

- **Brain Games** – A one-off training session to help teach your staff improv skills that will help in business and life situations.
  - **Momentum Classes** – A package of improv training classes to build on with your team. Great for brainstorming, ongoing team business and more. Recommend 4 to 6 sessions.
